Memorandum of Understanding Between the Passive House Institute and Energeticheskyy Al'yans

The Passive House Institute (PHI), located in Darmstadt, Germany, is an independent research institution that concerns itself with energy efficiency in construction and, in particular, the Passive House Standard. Energeticheskyy Al'yans is a Ukrainian NGO located in Dnepropetrovsk, Ukraine, whose goal is to change attitude of society as a whole and each individual citizen of Ukraine, in particular, in the issue of energy efficiency. Ukrpromsert is a Ukrainian energy auditing center. PHI held talks with Anatoly Karaul, representative of Energeticheskyy Al'yans and president of Ukrpromsert. It was agreed that Energeticheskyy Al'yans will:

- Promote the Passive House Standard as well as the EnerPHit Standard for retrofits in Ukraine, as set out by the Passive House Institute.
- Cooperate with PHI approved resellers of the Passive House Planning Package (PHPP) in Ukraine to increase uptake of the program amongst professionals.
- Collaborate with PHI in the energy monitoring of building stock.
- Carry out energy balances using the Passive House Planning Package (PHPP)
- Commission PHI to offer training for Certified Passive House Professionals in either English or German at PHI's Darmstadt offices to Energeticheskyy Al'yans employees as well as individuals from other interested organizations.
- Facilitate the training of Ukrpromsert experts in Ukraine as Certified Passive House Designers and/or Consultants.
- Work to drive construction of Passive House buildings as well as the renovation of buildings with Passive House components.
- Encourage the Passive House certification of new buildings and EnerPHit certification of retrofits in Ukraine via the Passive House Institute with the involvement of trained experts from the Ukrpromsert.
- Develop Passive House suitable building components in Ukraine and work with PHI to certify them according to current PHI certification criteria.

It should be noted that the Passive House Institute makes its knowledge available to everyone. Its research, its certification and training programmes, as well as the distribution of its planning tools such as the Passive House Planning Package (PHPP) and designPH can thus not be claimed as a monopoly by any single local entity. The Passive House Institute does not enter into exclusive contracts. It is happy to co-operate with suitable partners at any time, provided all necessary conditions and requirements are met. You are welcome to contact the Passive House Institute directly with any questions regarding partnerships, the certification of professionals, buildings, or building components, as well as all relevant consultancy services.
