WHY we need EcoHotel Plus platform

The shift towards sustainability is not a luxury but a necessity for the existence and growth of hotels.

The **EcoHotel**^{plus}

platform can help you

- ✓ Prepare for upcoming environmental commitments in legislation
- ✓ Enhance your environmental profile

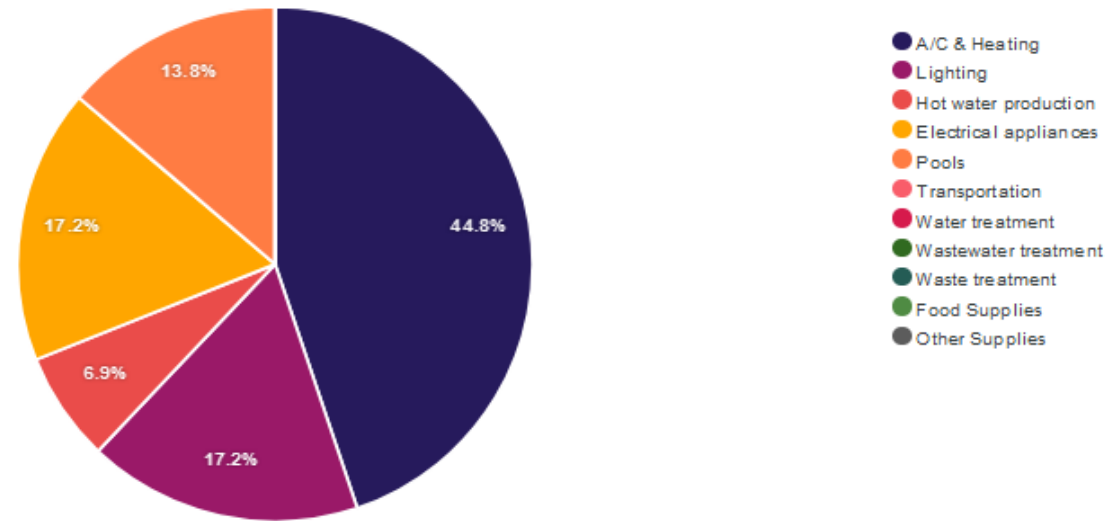

HOW does EcoHotel Plus work ?

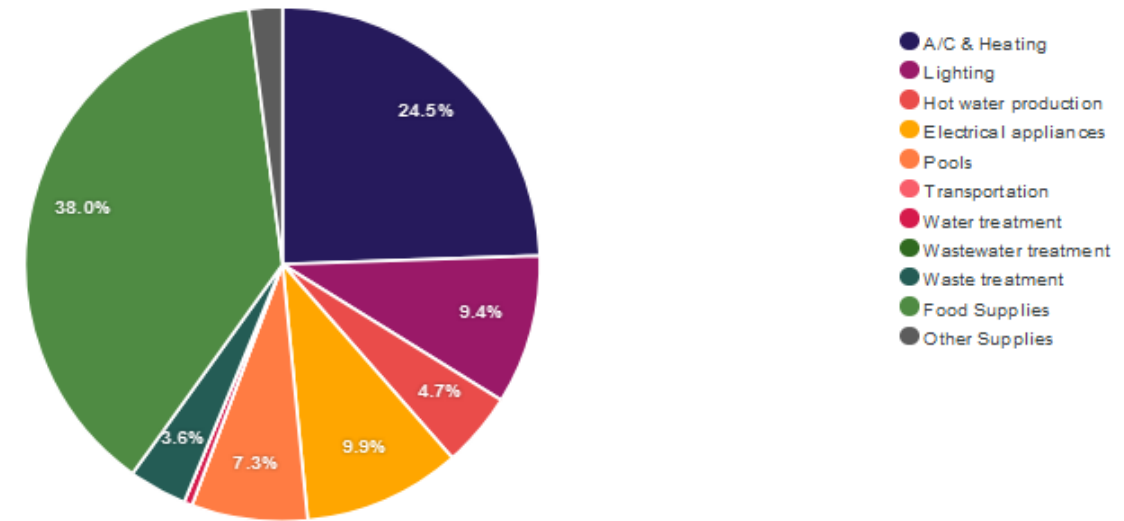

- ✔ analyzes and provides the capability to manage the energy and carbon footprint of the hotel
- ✔ helps identify the most energy-intensive areas quickly, facilitating the examination of easy reduction methods
- ✔ assists in improving the hotel's environmental image through corresponding environmental certification

Certifications through EcoHotel Plus

The **EcoHotel Plus** rewards hoteliers' efforts to promote environmental management and adopt sustainable practices through **three levels of certification**

Certified Level

The certification is awarded to hotels that complete their annual calculation of energy and carbon footprints

Gold Level

The certification is awarded to hotels that complete their annual calculations of energy and carbon footprints and demonstrate a reduction in greenhouse gas emissions compared to the baseline year.

Platinum Level

The certification is awarded to hotels that, in addition to calculating and reducing their energy footprint, also engage in offsetting their emissions that cannot be further reduced (Carbon Neutral).

AMBITION

During a forest fire, according to the African folktale,
all animals run to escape the flames

except for one hummingbird (the smallest bird in the world)

which takes a drop of water in its beak and throws it into the fire.

- "You're crazy, you won't stop the fire," an animal tells him.
- "I know," the hummingbird replies, "but I'm doing what I can."

Everyone has a crucial part on the journey to sustainability.

Our mission is to help all hoteliers understand theirs and provide tools to help them contribute their part

Thank you very much for your attention !
