# MonitorEE

## Project Update S1 + S2

*AGENEX*

*MonitorEE Communication Lead Partner*

1st MARCH 2024 | S1 + S2

**Interreg  
Europe**

Co-funded by  
the European Union

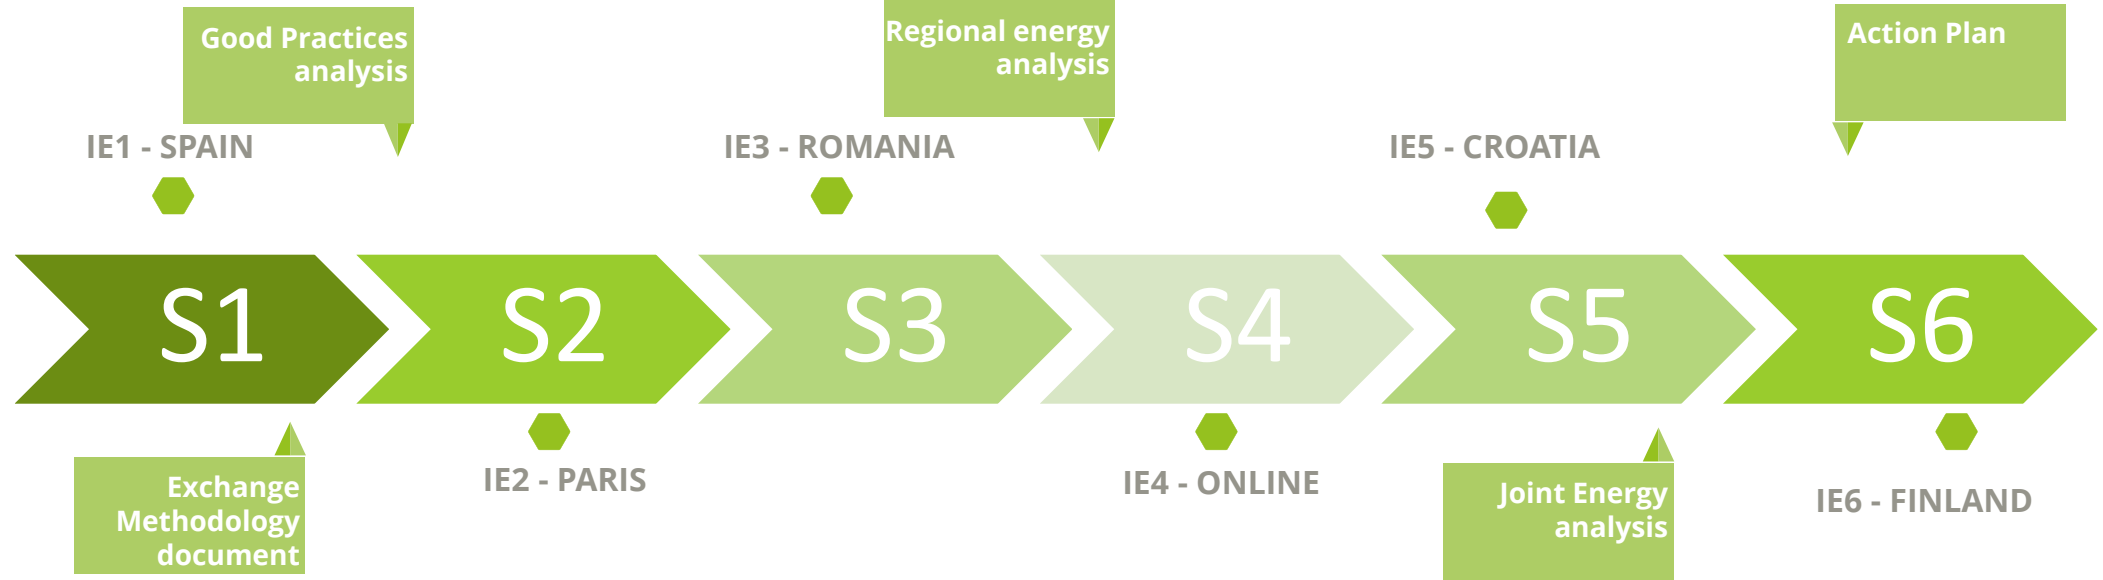

**MonitorEE**

The MonitorEE project is part of the Interreg Europe community, specifically within the 'GREEN' project branch.

# WORK PLAN

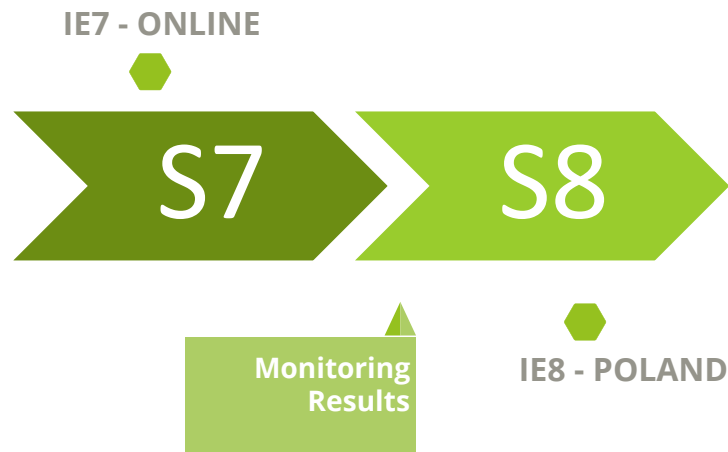

**CORE PHASE**

1st March 2023 - 28th February 2026

**FOLLOW-UP PHASE**

1st March 2026 - 28th February 2027

Our work plan is designed so that, during these two phases, improvements in our regional policies are achieved based on our work and learning.

# Work Plan Semester 1

During the first semester, various activities have enriched our learning, but most importantly, we have gotten to know each other and seen how each partner can contribute to this consortium.

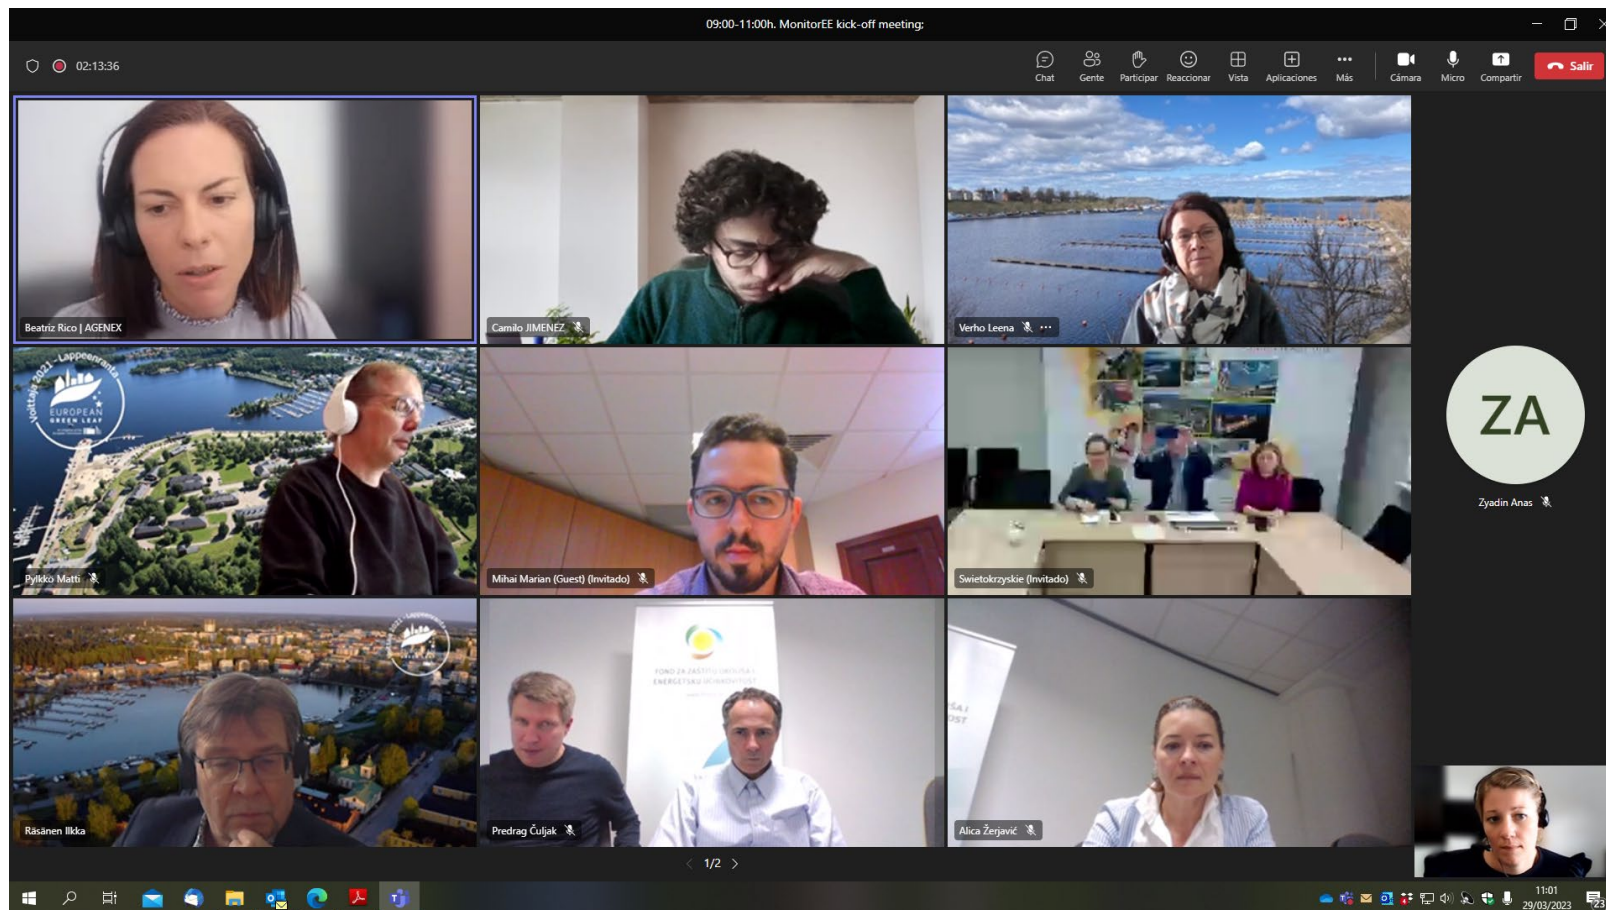

# Online KOM

For more information about our partners, download the KOM document from the library.

On March 29, 2023, we had our first interaction, thanks to the Kick-Off Meeting (KOM). This event allowed us to get to know our partners in greater depth and understand their concerns regarding the MonitorEE project.

**A great day to remember!**

# IE1- Badajoz

Master class (MC1)

Exchange and Monitoring Methodology.

Interregional workshop 1

Study visit (SV1)

Steering committee (SC1)

Another significant day to mark on our calendar was the 1st Interregional event in Badajoz at the end of May 2023. It allowed us to understand the importance of 'Exchange of Experience' within a consortium and within the Interreg platform.

Learn more about our first SV, MC, and SC in the project library.

**Don't miss it!**

# Local Stakeholder Meeting

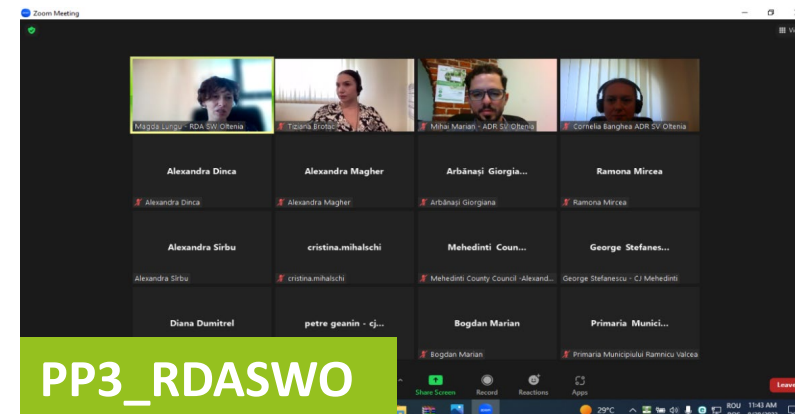

But we haven't just exchanged knowledge within the consortium; equally important is extending our learning within our regions. Thanks to the LSMs. Check out our initial regional steps in the LSM folder.

# Policy learning platform event

Interreg Europe  Co-funded by the European Union

## Rethinking local policies – Modern green districts

An Interreg Europe Policy Learning Platform Event

31 May – 1 June 2023, Zebrastraat, Ghent (Belgium)

PLP events help ensure that projects are not isolated entities but are part of the Interreg community. They facilitate the exchange and expansion of knowledge, both at the project and personal levels.

## Communication Activities

<https://www.interregeurope.eu/monitoree/news-and-events/news>

Posters, roll-ups, and the launch of the website, initial steps have been taken in these areas.

Interreg Europe  Co-funded by the European Union

**MonitorEE**

MonitorEE promotes the use of smarter management systems as a tool to reach the EU targets set for buildings by accelerating their renovation rate.

An interregional cooperation project for improving **energy efficiency** policies

**Project Partners**

- Consortium Extremadura Energy Agency (ES)
- Environmental Protection and Energy Efficiency Fund (HR)
- South-West Oltenia Regional Development Agency (RO)
- Lappeenranta Municipality (FI)
- Paris Climate Agency (FR)
- Marshal Office of Świętokrzyskie Voivodeship (PL)

# Work Plan Semester 2

During our second semester, we have seen the first results: the initial good practices have been exchanged among partners. You can find them on **our website** in the 'Good Practices' section.

**Don't hesitate to check out the information.**

# Lille training days!

Interreg  
Europe

Co-funded by  
the European Union

## Interreg Europe project training days

For first call projects

26-28 September 2023

Garage (34 Boulevard Carnot, 59800 Lille, France)

At the beginning of the semester, our Lead partner attended a training session in Lille organized by Interreg, where they were briefed on the projects in this new call. After three intense and enriching days of learning, AGENEX, as the project leader, conveyed all the information to the partners.

Monitoree Interreg Europe

27 de noviembre de 2023 · 🌐

Last week, the MonitorEE project attended the [Interreg Europe](#) training days in Lille. We achieved significant individual and organizational learning! Thanks for your efforts!!

# ONLINE FOLLOW UP MEETING

Date	Topic	Attendees
September 19 <sup>th</sup> 2023	Follow-up on project activities	10
November 3 <sup>rd</sup> 2023	Review of topics for IE3	10
January 12 <sup>th</sup> 2024	Follow-up on project activities	9
February 9 <sup>th</sup> 2024	Presentation of GPs	10

**MANAGEMENT. PROGRESS REPORT 1. FINANCIAL.**

**Pending activities from S1 and S2 LSM**

Partner	1 <sup>st</sup> LSM (dossier)	L.S.Group (Excel)	Exchange Methodology (Excel)	2 <sup>nd</sup> LSM (dossier)

**Monthly Elect consumption**

Region	Consumption (kWh)
ERRO 1/5	329,795
ERRO 2	198,052
UNIRIGA 8	
AGORA 11	
EXTENOR	

**SANTA ENGRACIA. 3<sup>rd</sup> Conclusions from the monitoring- Winter**

An important task are the coordination meetings. Thanks to these, we can organize interregional events, monitor activities, and stay updated on the latest developments in each region concerning the MonitorEE project.

- GP Identify, Gp template completed and sent to the LP. With the OK to be uploaded.
- GP uploaded to the MonitorEE website.

# IE2- Paris

Round Table (RT1)  
Study visit (SV2)  
Steering committee (SC2)

The project's second interregional event took place in Paris, at one of the most iconic locations, the **Paris City Council**. During those two days, meetings and study visits were held.

For more information, read our dossier.

**MonitorEE**

Improving energy efficiency through smarter management systems

## Draft Agenda Second Interregional Event

22<sup>nd</sup> /23<sup>rd</sup> November 2023

### 22<sup>nd</sup> November

09:00 - 09:15	Registration, Meeting Point Salon Chéret, City Council of Paris

## Good practices

Explore inspiring and tested policy solutions identified by our cooperation projects and beyond.

### EMIS platform for registering public building energy consumption

Energy Management Information System (EMIS) is centralized national database for all relevant energy efficiency information regarding public sector buildings.

06 Mar 2024 | By project MonitorEE

### Collaboration forum for multifamily apartment buildings promotes energy efficiency in Lappeenranta

Forum boosts cooperation among private housing associations by inviting board members to share experiences and know-how to implement energy efficiency measures.

19 Feb 2024 | By project MonitorEE

 Expert approved

### Implementation of energy tools for monitoring neighbourhoods' behaviours in Extremadura.

The development of two new management tools aims to reduce energy losses and CO2 emissions while promoting energy retrofitting.

15 Jan 2024 | By project MonitorEE

### Twin Buildings Demonstrators for testing and monitoring Energy Efficiency and performance comparison

The construction of two twin buildings, serving as demonstrators, has allowed the improvement of the construction system for new social housing in Extremadura.

08 Jan 2024 | By project MonitorEE

 Expert approved

### EnerSIG, application to cross data about buildings characterization and energy consumption in Paris

EnerSIG is a web application hosted by geodata services of Paris. It allows to cross data about buildings characteristics and energy efficiency.

04 Jan 2024 | By project MonitorEE

 Expert approved

One of the main activities of any Interreg project is the exchange of good practices. During this second semester, the initial steps in this regard have begun.

**Check our website's 'Good Practices' section.**
