

OD4GROWTH

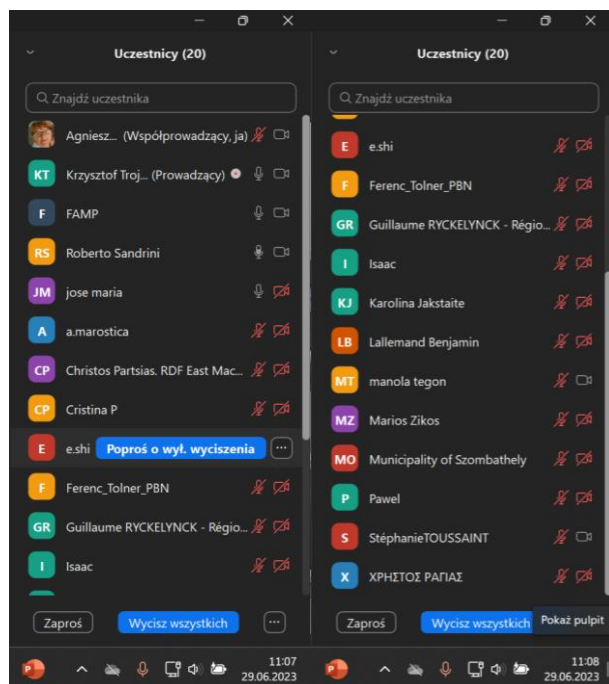

Minutes from the meeting

Date: June, 29th 2023 – 11:00-13:00 CEST
Place: ONLINE MEETING
<https://us02web.zoom.us/j/87590563042?pwd=aDdZMINydzJkTTRIT1ItV1NRb2hYUT09>
Topic: **OD4GROWTH project** - Strengthening the availability and processing of Open Data to support local growth and urban transformation;
1st Thematic groups consultation meeting on methodology

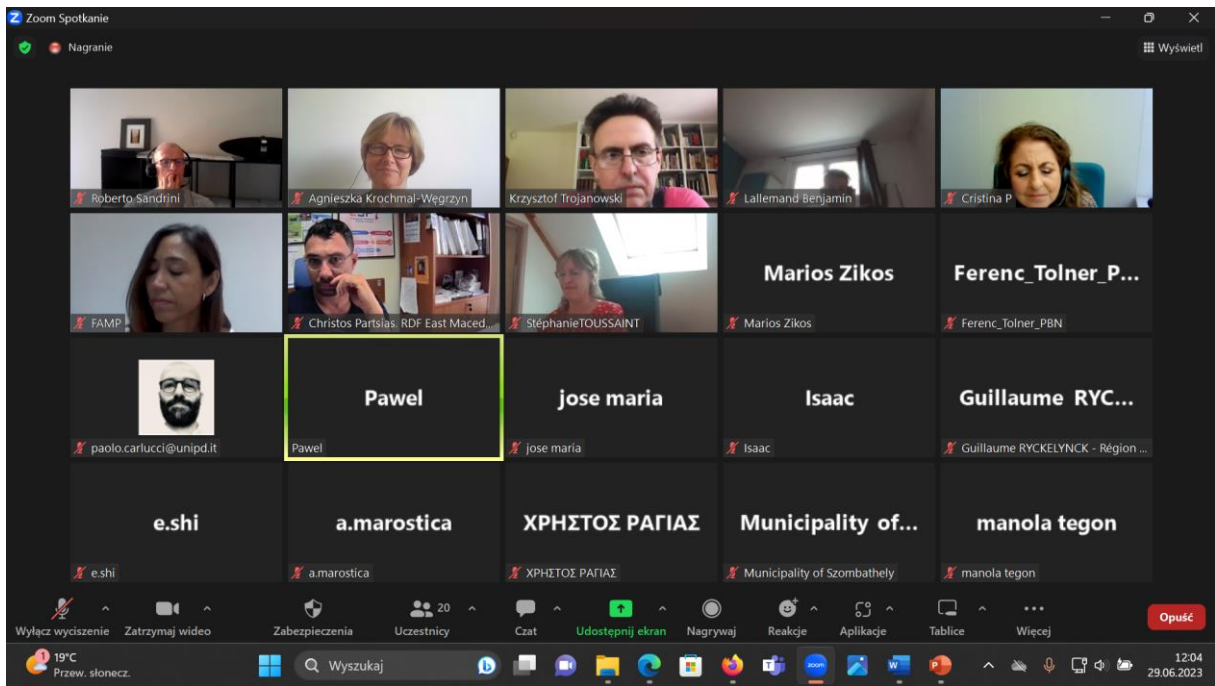

Agenda:

10:45-11:00	Connection	
11:00-11:15	Welcome by the LP + ARMSA, General introduction of Thematic groups activities (why they are established, main goal and activity), 3 Leaders presents shortly themselves and vision of the group activity	Project Leader, ARMSA, 3 Leaders
11:15-12:15	Presentation: Methodology of survey: interviews and desk analysis, SWOT (according to OD4Growth_SWOT_template)	ARMSA: Pawel Czyż
12:15-12:45	Discussion on the methodology (active involvement of Thematic Groups Leaders) Summary	All partners
12:45-13:00	Activity plan (before Warsaw September meeting), summary and wrap-up	ARMSA, Project leader

Participants: 20

OD4GROWTH

The meeting was being recorded.

The meeting commenced with an opening statement by Krzysztof Trojanowski from ARMSA.

OD4GROWTH

Welcome by the LP

General introduction of Thematic groups activities (why they are established, main goal and activity),

Establishment of 3 Working Groups

ARMSA would like to address the establishment of the working groups and provide an introduction by Krzysztof. These groups have been established with a specific purpose and goal in mind. Their main objective is to actively engage in various activities that contribute to the overall project objectives.

Thematic Groups Composition

1. Leader of the Group
2. Members:
Min 10 participants each:
5 from PP
5 from Stakeholders
3. Nationalities: min 5 nationalities
4. Representation
Group perspective: each PP in min 2 TG
Members perspective (min/max): 2 person/PP/TG

Establishment and kick-off of 3 thematic crossing groups

According to project plan – 3 groups (proposal of the „technical names“):

1. Supporting the quantity and quality availability of Open Data, mainly by public institutions;
Group 1 technical name: Q&Q
Leader (proposal): Manola Tegov (Veneto Region, Italy)
2. Supporting the Open Data processing action to increase the quality standards of public services addressed to citizens in different fields;
Group 2 technical name: Public services
Leader (proposal): Benjamin Lallemand (Grand E-Nov, France)
3. Supporting the OD process to trigger business and entrepreneurship with new products and services.
Group 3 technical name: Business
Leader (proposal): Krzysztof Trojanowski (ARMSA, Poland)

3 Leaders presents shortly themselves and vision of the group activity

OBJECTIVE OF THIS PRESENTATION

- 1) Starting from the strategy and the experience of the Veneto Region, propose an approach to work with the quantity and quality of data.
- 2) To propose a framework to be further discussed with the partners concerning the following steps of the Quantity&Quality (Q&Q) thematic working group.

Approach and main topics

Following the Veneto Digital Agenda 2020, the Veneto Region has updated the program implementing **new strategic initiatives for digitalization** that have been promoted by the European Union and the Italian Agency for Digitalization (*Agenzia per l'Italia Digitale, AgID*). The **strategic goals** identified in the Veneto Digital Agenda 2025 are the result of a **round of 9 meetings held at Innovation Labs** spread throughout the territory. Here are the **main topics emerging from the debates**:

- Digital skills**: Developing citizens, employees and policy makers' digital skills
- Connectivity**: Increases connectivity levels to reach remote areas and meet families and companies' needs
- Simple services**: Create accessible and user friendly e-government services to enhance user experience
- Data**: Using data to foster development and territorial government, also integrating public & private database
- Innovative technologies**: Spreading new technologies in the market to improve services and create new business models
- Regional assets**: Promoting regional wealth in terms of initiatives, projects, digital stakeholders
- Strategic goals**: Establishing new strategic goals in the medium-long term to exploit the potential of digitalization

Vision

From the **debates** among citizens, stakeholders and local communities, it appears that digitalization plays and will continue to play a **strategic role** in defining the future of our territory. In this context, the Veneto Digital Agenda 2025 identifies **3 key strategic goals**, **4 pillars** and **9 ecosystems**.

- 4 Pillars**: Attractiveness, Digital skills, Services, Data
- 3 Strategic Goals**:
 - More Attractive: improving citizens' quality of life
 - More Sustainable: promoting ecological transition
 - More Cohesive: activating inclusive economic activities
- 9 Ecosystems**: Infrastructure, Health care and welfare, Public Administration and Training, Agriculture, Environment and Energy, Industry and Manufacturing, Education and Research, Culture, Digital

Open Data benefits

Open data is an important lever for economic and social growth and development

- Decision-making
- Digital services (social innovation)
- Transparency and accountability
- Reduction of data search costs
- Economic development
- Innovative business model
- Competition between companies
- e-Government
- Efficiency

Does the „Manual...” presents the research methods?

- Apart from the questions to answer, there is an information provided, what should be a source of the answer for the questions
- In the mentioned example (Chapter 2.3.) there are (see in green):
 - Desk research
 - Interviews
 - Online survey
 - SWOT
- Of course, you can use more methods

2.3. challenges connected with the development of the Open Data approach in the region

From the [green box] please submit the information from the documents, text, web pages, etc. Please answer the document "Open data maturity questionnaire" (OD4_ODS_2023) (Municipality Report 2022 & local IT plan annexes) for your country - if the report includes descriptions, what can be used in the context answering questions:

What are the challenges connected with the development of the Open Data approach in the region?

From the [green box] please use the answers, received on the following questions:

What are key challenges regarding the OD4OD in the regional policy?

What are the main reasons for the failure and success of the OD4OD, should be further continued in the regional policy? What have to be changed?

What should be done if you are able to collect OD more common in the region? What do we not know?

From the [green box] please use the answers, received on the following questions in the RRF 4 "General information" for each country (Table 3, Page 3 & Page 10):

Question 3: What of the "Open data phenomenon"?

Question 4: Answers to the "Open data data"?

Question 6: Role in the implementation of the "Open Data approach"?

From the [green box] please use the answers, received on the following questions in the RRF 4 "General information"?

Why do you not continue with the public data in the region?

From the [green box] please use the answers, connected to the opportunities, that are connected with development of Open Data approach.

Pawel

What about the interviews and online – survey?

- As you can see, among the green highlighted methods (apart from desk research and SWOT), are:
 - Interviews.
 - On-line survey.
- In regard of **interviews**, you can simply use the questions as a source for scenarios of your interviews

From the [green box] please use the answers, received on the following questions:

What are key challenges regarding the OD4OD in the regional policy?

What are the main reasons for the failure and success of the OD4OD, should be further continued in the regional policy? What have to be changed?

What should be done if you are able to collect OD more common in the region? What do we not know?

From the [green box] please use the answers, received on the following questions in the RRF 4 "General information" for each country (Table 3, Page 3 & Page 10):

Question 3: What of the "Open data phenomenon"?

Question 4: Answers to the "Open data data"?

Question 6: Role in the implementation of the "Open Data approach"?

From the [green box] please use the answers, received on the following questions in the RRF 4 "General information"?

Why do you not continue with the public data in the region?

From the [green box] please use the answers, connected to the opportunities, that are connected with development of Open Data approach.

What about online – survey?

- The „Manual...” includes three complete scenarios for online-survey.
- Three different scenarios preparation was necessary because there are different groups of respondents, and it is not possible to address one scenario for all
- In result, in the „Manual...” you will find an info, where you can find a question in scenario, i.e. in which scenario and – if necessary – in which part of the scenario

Online – survey scenarios

- Scenarios are in the Appendix 1 do the „Manual...”
- As mentioned, there are three different scenarios:
 - First - for respondents being data providers
 - Second - for respondents being data users / citizens
 - Third - for respondent being businesses

Appendix 1: Scenario of on-line surveys for Topic 1A and 1B, Topic 2A and 2B, Topic 3 25

Scenario 1. Topic 1 "Quantity and quality of OD" and Topic 2 "OD to increase quality standards of public services - OD for Citizens" – perspective of data providers 27

Scenario 2. Topic 1 "Quantity and quality of OD" and Topic 2 "OD to increase quality standards of public services - Open data for citizens" – perspective of data users / citizens 32

Scenario 3. Topic No 3 "OD for business (products and services) / OD for economic growth".... 38

The scope of the discussion is as follows:

1. The idea is that members of the thematic group can serve as consultants together with the stakeholders.
2. Regarding the interviews and survey at the end of August, how many interviews are planned?
3. Online questionnaires, which are used to develop the online survey, can be created using the Google tool.
4. Respondents: They can either be representatives of the organization (one person per organization) or representatives from specific departments (more than one person from each organization, but no more than one from each department).
5. Indicators are provided in the manual.
6. For the Q&A session on methodology, it is recommended to carefully read the manual downloaded on Trello, review the presentation and matrix by Monday, and send any questions to ARMSA (Krzysztof) by Wednesday. Based on the number of questions received, ARMSA will decide whether to organize an individual meeting or a Q&A session on Thursday.

Thematic Groups kick-off (proposal)

SLIDE 10

- Date: **5-6 Sept 2023** in Warsaw (arrival: 4th of Sept)

Activities foreseen (general agenda):

Day 1:

- Confirmation of the Thematic groups' composition (members + Leaders)
- General and specific rules and activity plan (according to the project requirements)
- 3 Thematic Groups presentations (main challenges and priorities of each group)
- Group work (discussion) towards specific activity plan (each group) with conclusion and start plan
- Evaluation of the 1st semester results (data and analysis performed before the end of Aug 2023)

Day 2:

- Visits to organizations (proposal: Cambridge Innovation Centre) / meetings with experts, to be fixed yet)
- Summary of the meeting (detailed plan for the 2nd semester, general plan for the next semesters)
