

# IMPACT

This INTERREG project would like to contribute to EU growth, improving and revising policies to enhance the Data economy in EU and contribute to a smarter Europe, an open society and a shared knowledge area. The project encourages “data” to become a pillar for the digital economy and the twin transition.

## ABOUT THE PROJECT

OD4GROWTH is an ambitious INTERREG project that focuses on leveraging open data to improve the well-being and quality of life for citizens. The project aims to achieve this goal by both increasing the quantity of data available and enhancing its quality. By doing so, it intends to enable the development of better public services, new applications, and innovative products.
