CIBioGo

Context and problems

CIBioGo aims at boosting citizens participation in the biodiversity governance, safeguarding the protected areas, strengthening the ecosystem services, and facilitating environmentally friendly territorial development strategies.

To do so, it is necessary to improve the **involvement** and cooperation of stakeholders and citizens as well as overcoming the **lack of awareness** regarding the value of biodiversity with its ecosystem services.

Events

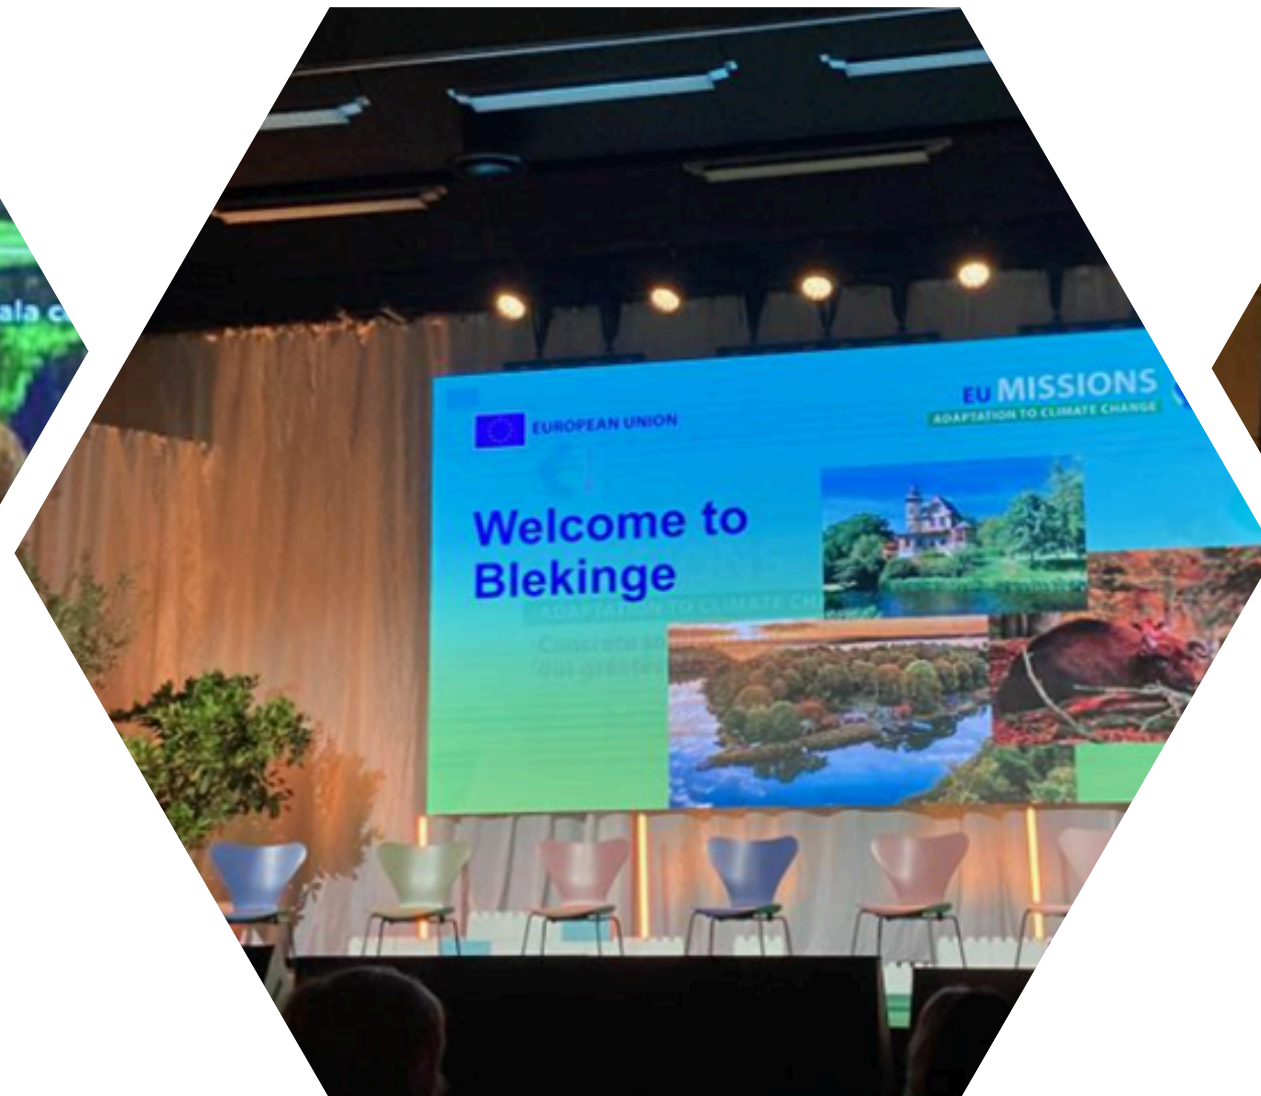

CIBioGo/ National event "L'Acqua e le Foreste" (Water and Forests) (Semester 1)

2nd Forum on the EU Mission Adaptation to Climate Change (Semester 1)
