OD4GROWTH

ABOUT

OD4GROWTH is an ambitious INTERREG project that focuses on leveraging open data to improve the well-being and quality of life for citizens. The project aims to achieve this goal by increasing the quantity of data available and enhancing its quality, intending to enable the development of better public services, new applications and innovative products.

OBJECTIVES

- Improve policies concerning the regional and local data economy in the EU
- Work on the availability and processing of open data (OD) by public and private actors
- Increase the quality of public services with the implementation of processed OD
- Increase the economic impact of the OD exploitation supporting SMEs, START UPS and researches for new products and services

IMPACT

This project aims to contribute to EU growth by improving and revising policies to enhance the Data economy in EU, and contribute to the smarter Europe - an open society and a shared knowledge area. The project encourages “data” to become a pillar for the digital economy and the twin transition.
