# The Team

**Project leader**

**Climate policy officer**

**Energy expert**

**EU funding advisors**

**Stakeholder engagement**

# Stakeholders to be involved

## Stakeholders that have leftover heat:

- Maselis (industrial company)
- Soubry (industrial company)
- Voeders Debaillie (industrial company)
- Aquafin (sewage managing authority with leftover heating in the sewage system)

## Other actors:

- National Energy Authority (VREG)
- Developer for site Damman Croes
- De Mandel & Sociaal Verhuur (social housing company)
- Association of Flemish Cities and Communities (VVSG)
- *Kenniscentrum Vlaamse steden*
- *WVI*
- *MiROM (heat net Roeselare)*

# Expected results

*To identify criteria and a methodology turn the heat transition plan into an actual instrument with concrete actions and involvement of stakeholders at neighbourhood level through exchange of experiences of PPs on implementation and common challenges*

**Time for questions**

**Thank you!**
