

The INERTWaste

Follow our progresses,
watch how we build INERTWASTE!

Interreg Europe  Co-funded by the European Union

INERTWASTE

Since the start of the year, the INERTWASTE partners have accelerated their exchange of experiences. They successfully organised the second Transnational Learning Journey, hosted by the Regional Development Agency Podravje in Maribor (Slovenia), and published the first set of Good Practices. In each of the project's regions discussions are progressing and ideas on how to improve our policy instruments are beginning to take shape, allowing you to directly benefit from our shared insights.
