CHEERS4EU

HSY is Finland's largest public operator in the environmental sector, providing waste management and water supply **services to over one million residents** in the Helsinki Metropolitan Area.

Additionally, we are responsible for **air quality information**, produce geographic data on regional development, and promote **climate action and the circular economy**. HSY's **vision is to make** the Helsinki Metropolitan Area the **most sustainable urban area in the world**.

Henna Pedersen

HSY's Project Manager in the CHEERS4EU project

“We are pleased to have the opportunity to exchange best practices with a dedicated project team to promote the circular economy! As part of this initiative, we have already made significant progress in advancing new collaboration projects and establishing new partnerships.”

Ekomo-collaboration at the Ämmässuo Eco-Industrial Center is a platform for the circular economy that provides a framework for activities that promote material and resource efficiency.

The aim is to connect various stakeholders to collaboratively develop new solutions for the circular economy at the Eco-Industrial Center.

Currently, there are over ten business partners actively engaged in operations within the Eco-Industrial Center area.

“We offer companies at the Eco-Industrial Center, for example, areas and infrastructure suitable for their operations, materials, a collaboration network, and services such as machinery and weighing services.”

Our CHEERS4EU-mission:

Development of the Eco-Industrial Center and Ekomo activities

HSY's goals in the project are to develop Ekomo activities, such as:

- **enhancing Ekomo's business and educational collaboration,**
 - **exchanging information and experiences between the project's circular economy hubs,**
- **increasing Ekomo's visibility and awareness of the importance and opportunities of the circular economy,**
- **promoting new Ekomo collaboration projects,**
and
- **developing communication and cooperation among the Ekomo partners.**
