*“We want to accelerate the transition to a circular economy in Limburg, by learning about Circular Hubs and their best practices, together with our partners and stakeholders.”*

## **The Province of Limburg wants to learn from various Circular Hubs.**

In this project, we want to learn from different Hubs, international and regional, large scale and small scale, existing Hubs and starting future Hubs.

This gives us as policy makers input on how we can create the best conditions to let Circular Hubs thrive, and thereby speed up the transition towards a greener Europe.

## **Brightlands Circular Space**

Brightlands Circular Space is an international co-creation center for circular plastics. Our goal is to accelerate the recycling of used plastics to produce new raw materials on an industrial scale and to close the cycle for plastic raw materials.
