Mullingar is home to some world leading manufacturing companies. They create products and services that change the lives of people in our community and around the world everyday.

Dreambig is a programme to inspire, engage and support young people in the Midlands to pursue a career in advanced manufacturing.

20

Is the maximum number of students on this programme.

automation & manufacturing

To dream big,
you don't need
to go far

atimcluster
advanced technologies in manufacturing
accelerating industry growth together

The Dreambig programme offers students a unique opportunity to visit and explore not just 1, but 5 manufacturing companies to learn more about the products and services they create, as well as the people behind them. Students will engage in hands-on activities covering digitalisation, robotics, engineering, automation and manufacturing - DREAM- and learn about the key skills used in these workplaces.

- Digitalisation
- Robotics
- Engineer
- Automation
- Manufacturing

The programme won't end there. We will meet with parents, guidance counsellors and most importantly, the students, to provide a programme of support, study and work so the pathway to achieve big dreams is in reach for the participants.

After all, dreams have no boundaries, neither should you!

Schedule: 8th-12th May 2023

Bus pickup 9am & drop off at 4pm IMR

digitalisation, robotics, engineering,
automation & manufacturing
