

## Regulation and strategies supporting SIRCovid

Figure 1: SIRCovid Setting

The SIRCovid Best Practice is supported by regulation, and strategies:

- RESOLUTION of September 18, 2020, of the Technical Secretary General, setting forth the protocol between the Department of Citizenship and Social Rights and the Department of Health of the Government of Aragon for the development of joint actions in Nursing Home Centers for the elderly and Centers for people with disabilities resolution.

- Health care programme for residents in Nursing Home Centres.  
[https://intranet.salud.aragon.es/estrategias\\_y\\_programas\\_de\\_salud/PROGRAMA%20ATENCIÓN%20A%20LA%20SALUD%20DE%20PERSONAS%20EN%20CENTROS%20RESIDENCIALES.pdf](https://intranet.salud.aragon.es/estrategias_y_programas_de_salud/PROGRAMA%20ATENCIÓN%20A%20LA%20SALUD%20DE%20PERSONAS%20EN%20CENTROS%20RESIDENCIALES.pdf)
- New strategic integrated framework in surveillance and control of acute respiratory infections – post-COVID-19  
<https://www.aragon.es/-/residencias-covid>

**Other care programmes taken into account are:**

- Care program for elderly patients and fragile elderly
- Care program for the terminally immobilized dependent patient
- Care program for complex chronic patients
- Diabetic patient care program
- Program for rational use of medicines and health products
- Vaccination program
- Epidemiological surveillance program
- Protocol of good practices in the use of subjections
- COPD patient care program (2024)
- Care program for patients with malnutrition (2024)

This has laid the foundation for developing the “Healthcare program for elderly and those with disabilities living in nursing homes”. SIRCovid is today part of the ICT solutions of the Health Department.

As of April 2024, figures on data accessed and viewed on SIRCovid is as follows:

Health staff can view data & documentation included in SIRCovid by nursing home professionals: assessments & nursing notes (713 Rec.), occupational therapy data (533), physiotherapy (354), physical conditions (965).
