

Online briefing on

Interreg Europe Policy Learning Platform

23 September 2021, 10:00-11:00

for the Committee of the Regions

Interreg Europe helps regional and local governments across Europe to develop and deliver better policies. The Policy Learning Platform is a strategic initiative of this programme, established to boost EU-wide policy learning and capitalisation on regional development policy practices. It stands for continuous learning where the policymaking community in Europe can tap into the knowhow of experts and peers.

This on-line briefing will present the main services of the Interreg Europe Platform available to public authorities all over Europe. Presentation from the representatives of the Interreg Europe's joint secretariat and its Policy Learning Platform will be complemented by testimonials of beneficiaries of these services. There will also be time for questions and exchanges about the future programme.
